Other Notes

The Novant Health System total is \$883,710,325. The facility number includes an allocation of non acute facility benefits.

* Footnotes:

The costing methodology or source used to determine payer costs is:

	The ANDI methodology, which uses a facility- wide ratio of cost to charges as described in NCHA Community Benefits Guidelines.
	An internal cost accounting system, adjusted for community benefit reporting.
	An internal cost accounting system, adjusted for community benefit reporting, for all items except bad debt and charity care, which use in internal cost-to-charge ratio approach that is based on the methodology specified in the NCHA Community Benefits Guidelines.
X	An internal cost-to-charge ratio approach that is based on the methodology specified in the NCHA Community Benefits Guidelines.

All costing methodologies do not double-count expenses reported in other community benefit items. For example, amounts reported in Subsidized Health Services do not also appear in Medicaid losses.
