

Could Your Hospital Benefit From A New Revenue Source?

Commerce Bank is committed to helping hospitals generate a steady revenue stream to offset costs by paying their bills through the Visa® Network.

With Commerce Bank's ControlPay® AP Payments, you can earn monthly revenue share by simply replacing paper checks with electronic payments through the Visa® Network. This flexible solution requires no software, and the Commerce Bank Vendor Enrollment team will contact and enroll suppliers on your behalf.

Implementation made easy

Commerce Bank will help you get your program up and running without interruption and also help you maximize your revenue share.

- Keep your existing banking relationships
- Commerce Bank support teams help with file transfers, training and vendor enrollment
- Account Managers assigned for ongoing program evaluation to help maximize monthly revenue
- In-house Customer Service team based in Kansas City, Missouri
- Multiple, flexible program options customized for your organization to pay vendors or automate the entire invoice receipt, approval and payment processes

Here's what Cape Fear Valley Health has to say about Commerce Bank's Automated Accounts Payable Solution.

"The speed at which Commerce Bank had our program up and running was impressive. Many companies advertise turnkey operations, but Commerce Bank's ControlPay AP Payments truly is. From our initial meeting, to completion of vendor enrollment and full use of the program, the transition was seamless and quick, with minimal effort on our part. The attentive and client-focused approach to service coupled with the revenue share we earn, allows us to focus on patient care."
