3 Q&A

Introducing iRound for Patient Experience

Technology-Enabled Connectivity and Data Capture

1

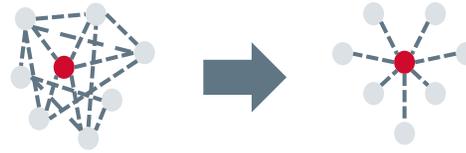

Rounding Technology Enables Better Connection with Patients

- ↑ Real time responses
- ↓ Latency of data

Benefits

- Hearing from more patients can surface counterintuitive insights
- Feedback more actionable when returned in minutes vs. weeks

Embedded Service Recovery Alert System

2

Service Recovery Hardwires Identification and Resolution of Issues

- ↑ Responsiveness to complaints
- ↑ Recognition of excellent care

Benefits

- Increased patient responsiveness & satisfaction with real-time feedback
- Provides more meaningful recognition to staff & promotes ideal behaviors

Housewide Visibility and Accountability

3

Analytics & Support Drive Continuous Process Improvement

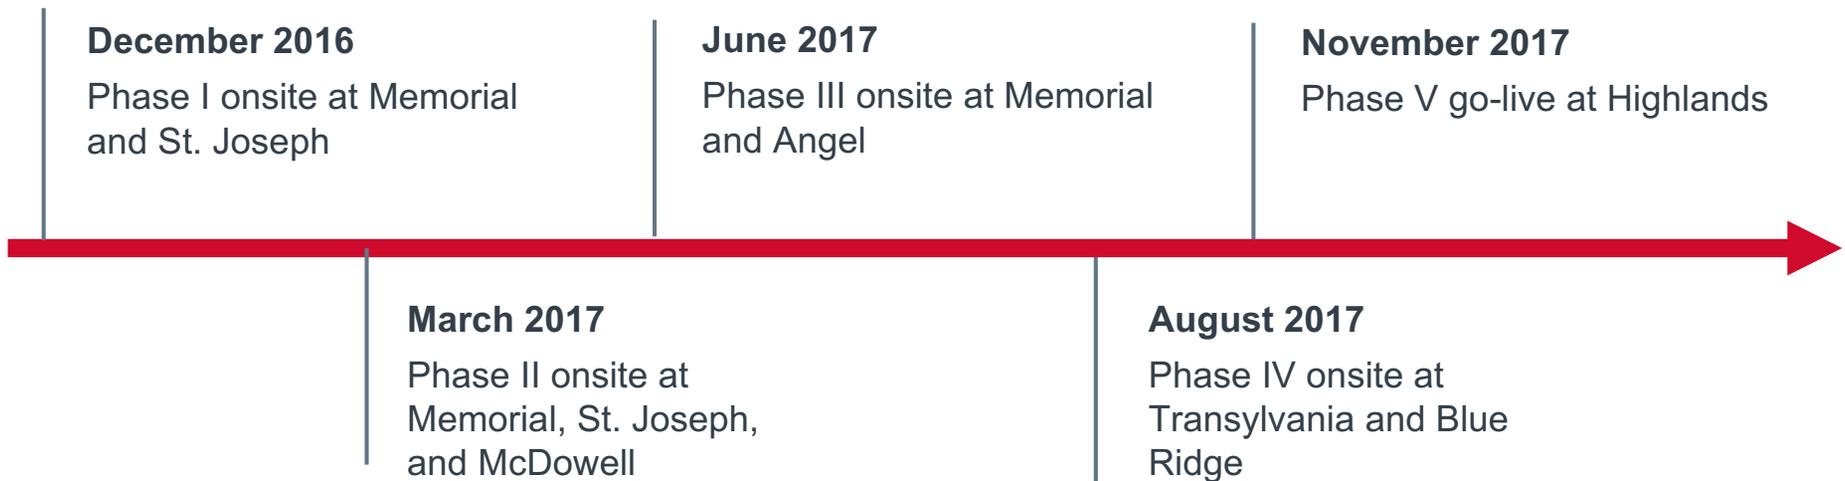

- ↑ Relevancy of patient feedback
- ↓ Improvement cycle time

Benefits

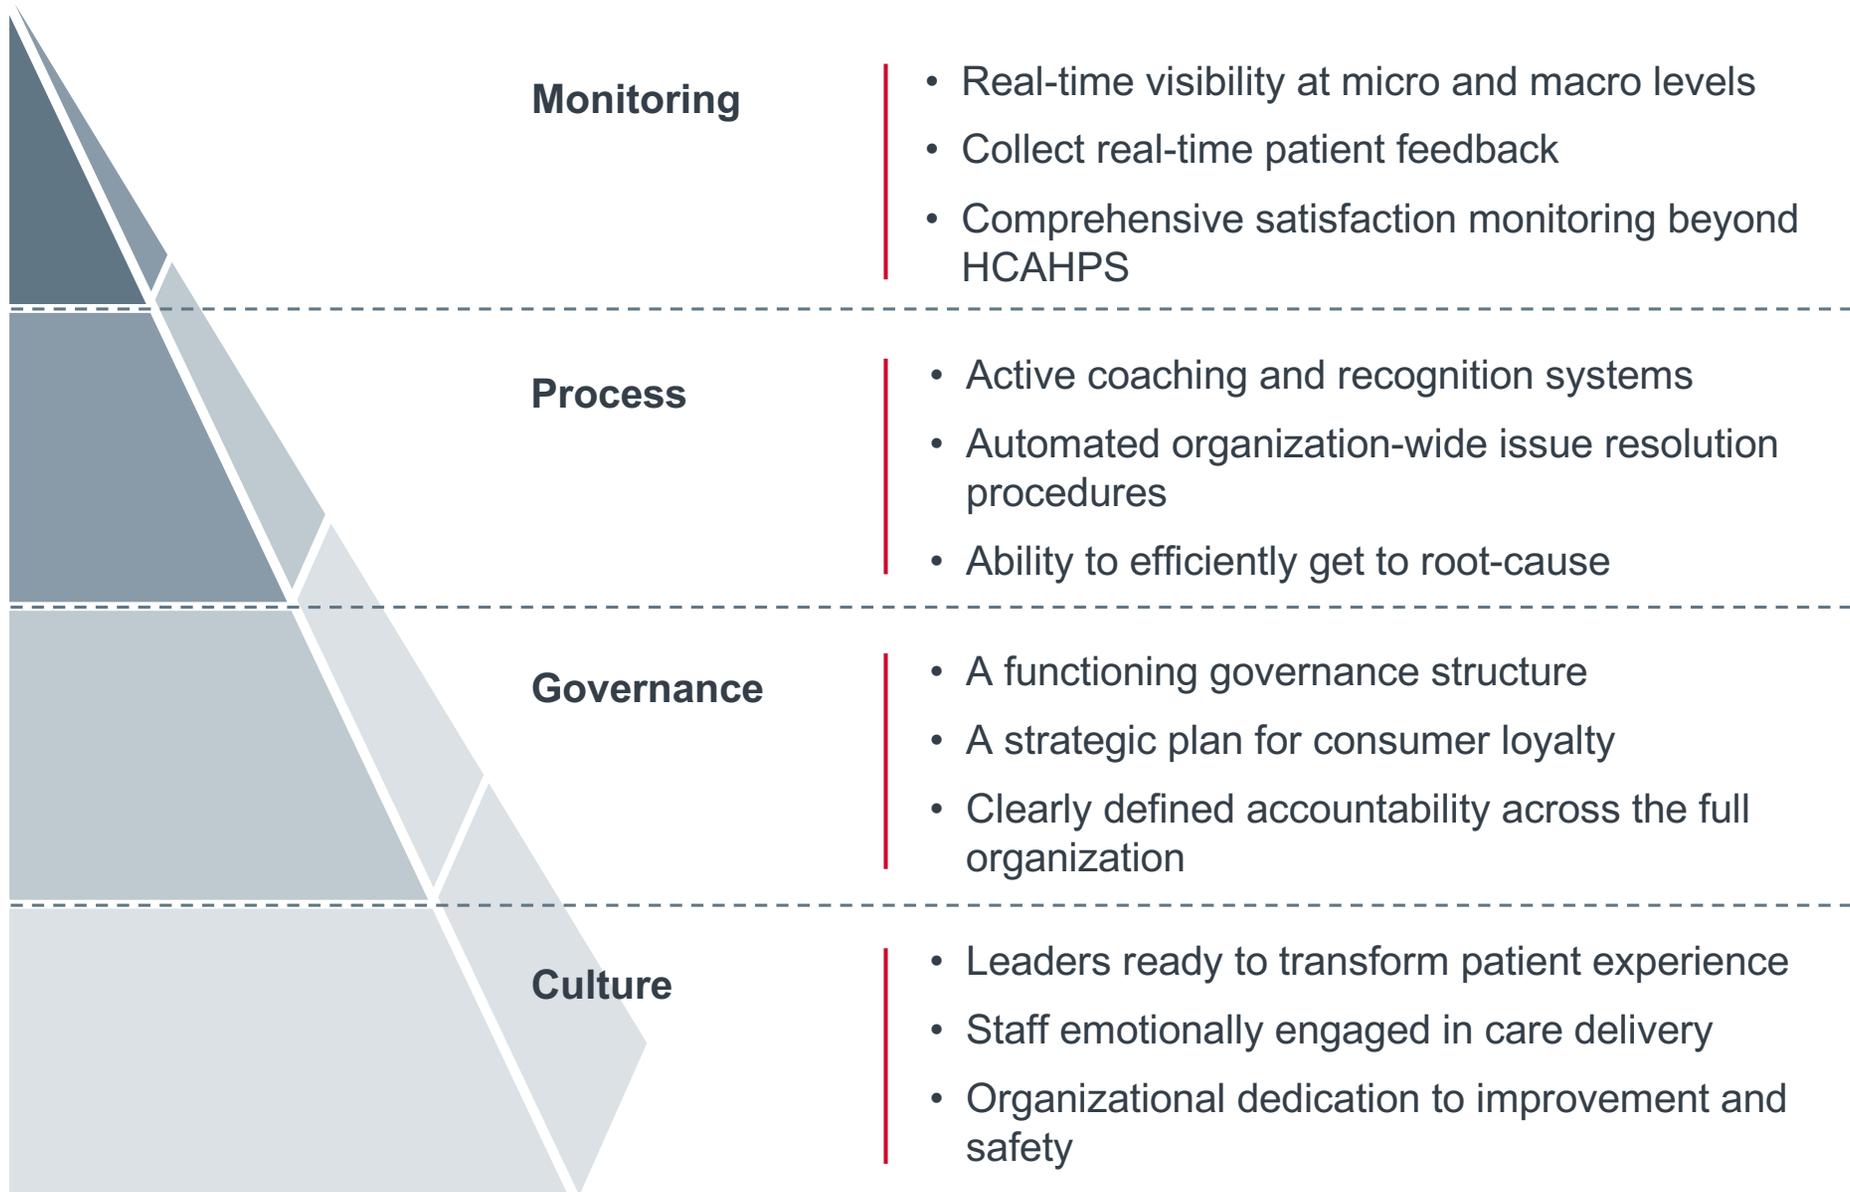

- Application of data-driven approach to more problems with faster cycle time
- Leveraging best practices for specific interventions & change management

Objectives & Implementation Milestones

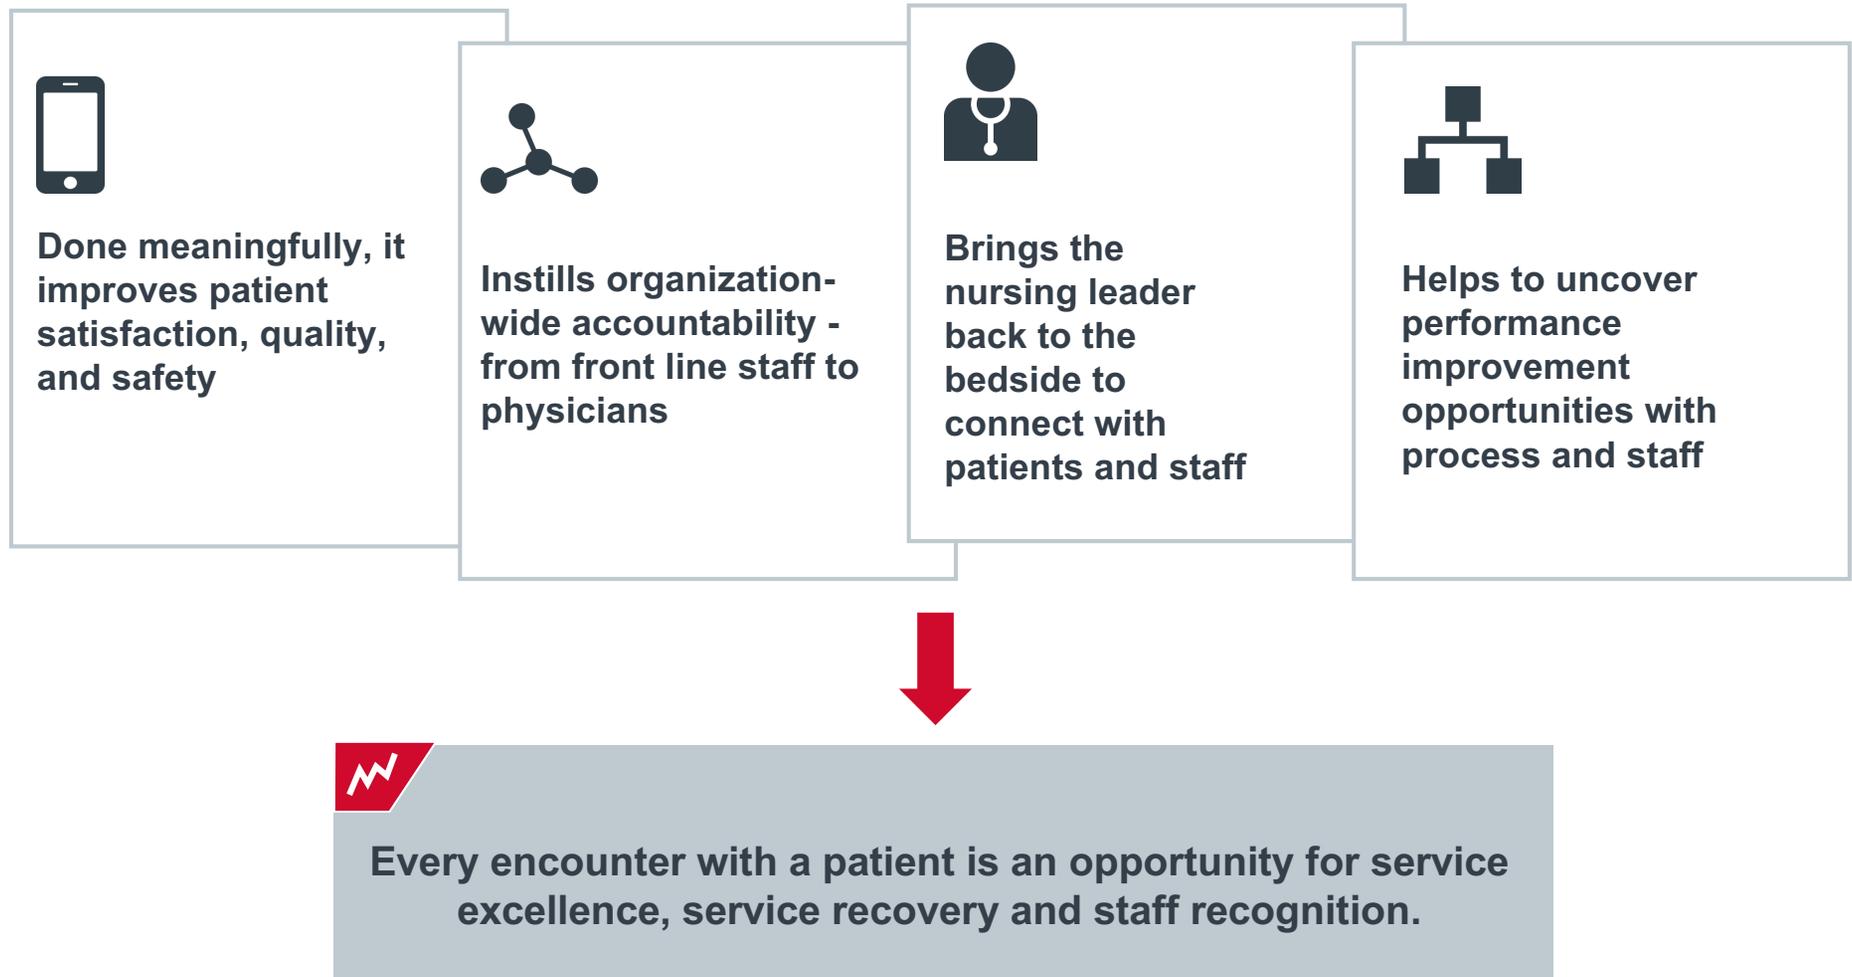

Objectives
Hear from a larger number of patients <i>in real-time</i> (vs. HCAHPS scores) to uncover areas of opportunity and address prior to discharge
Hardwire consistency of rounding and accountability for rounding
Improve Service Recovery process; engage ancillary departments in patient experience
Recognize staff for exceptional performance; hardwire best practices
Elevate patient experience and scores; maintain an upward trend

Hierarchy of Patient Experience Organizational Needs

Importance of Daily Leader Rounding

Never Lose Sight of the Real Purpose

If you're not taking care of the **whole person**,
you're not taking care of the **patient**

Nurse Perception of Patient

Patient in room 182 admitted two days ago

- Diagnosed with **gallstone pancreatitis**
- Scheduled for an **ERCP**
- Acting **irritable** today
- Requested **additional pain medication** twice

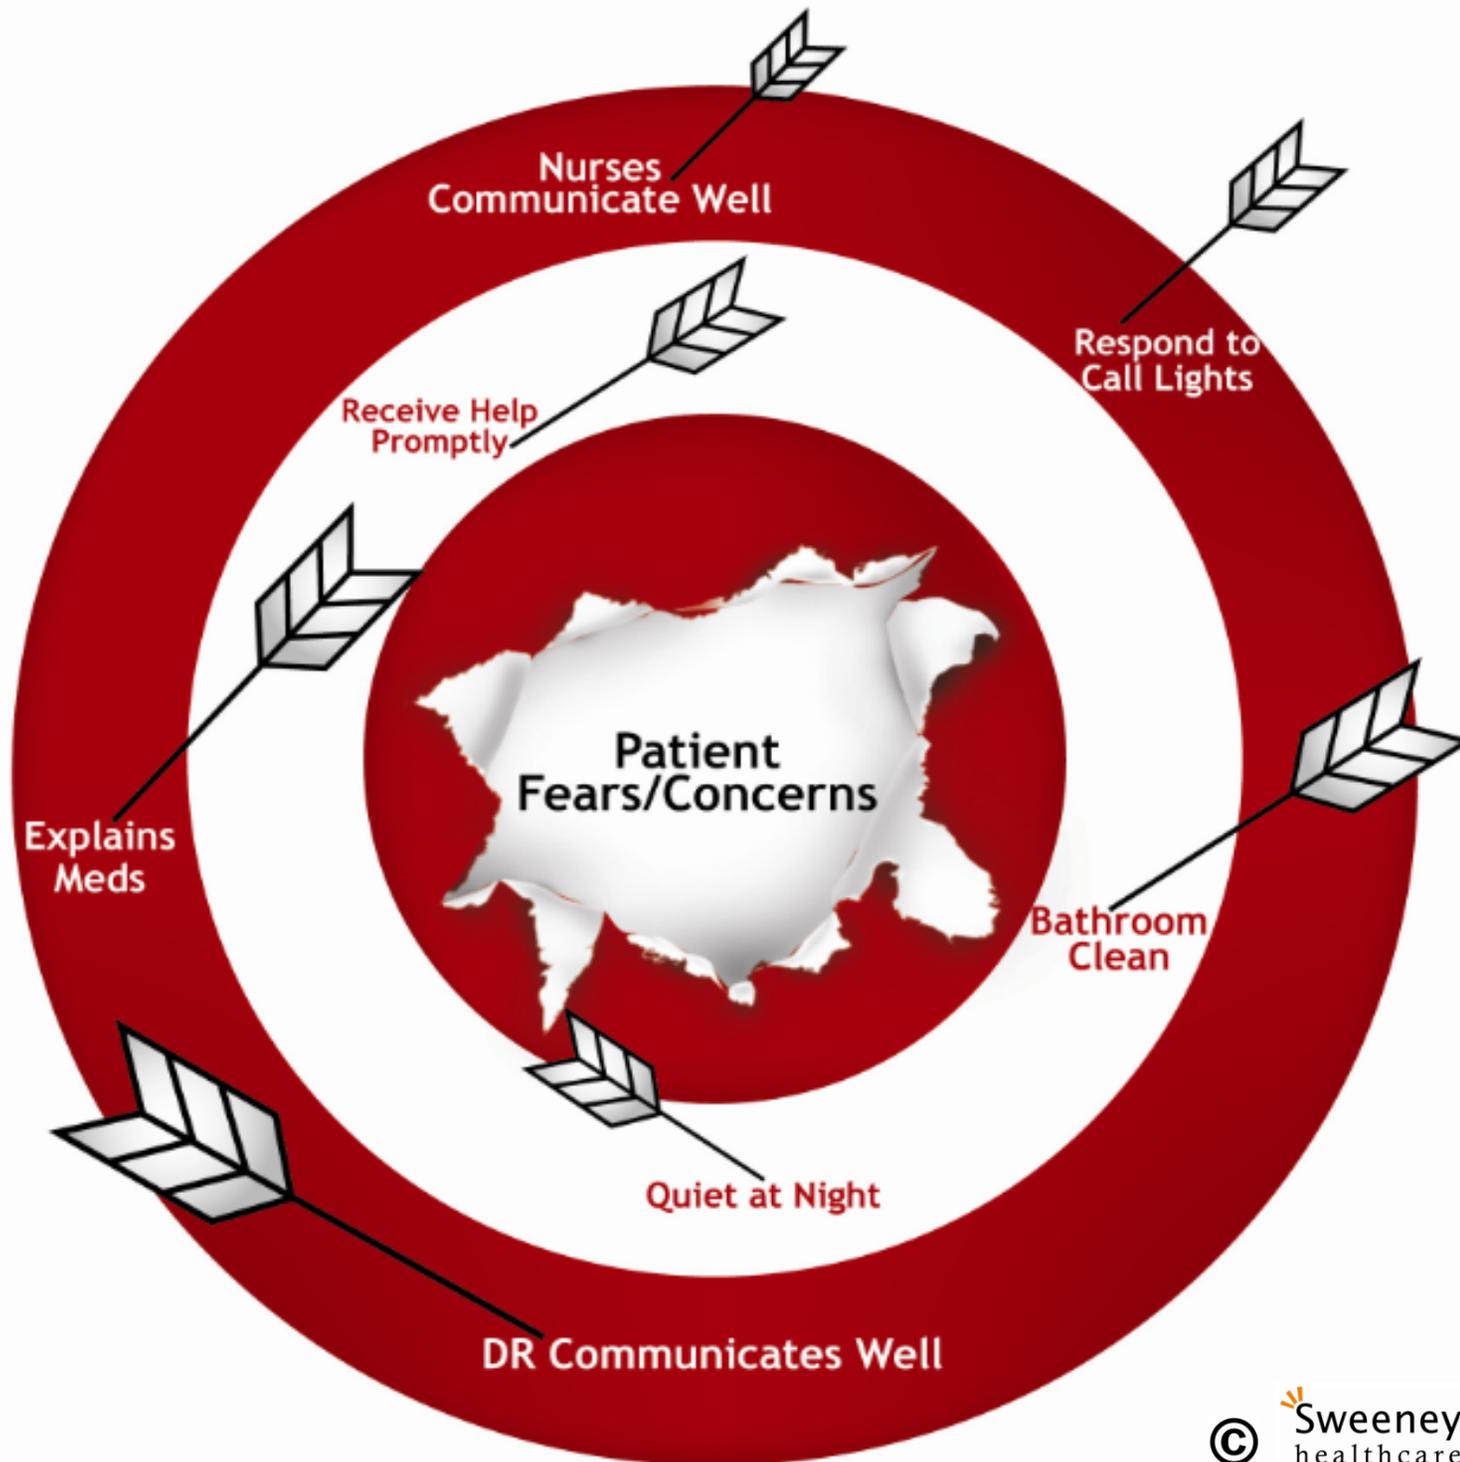

Patient Perception of Experience

“I’ve never been admitted to the hospital before.”

- **Anxious** about inpatient stay
- **Concerned** about long-term impact of surgery on ability to work physically demanding job
- **Worried** about missing daughter’s upcoming wedding

HITTING THE TARGET -MISSING THE MARK

**Nurses Understanding and Caring – ED
% Excellent Rank**

**Overall Quality of Nursing Care – ED %
Excellent Rank**

ED Ambassador
rounding, in addition
to other nurse leaders

Rounded on over **11,000**
patients/families between
March 2017 and January 2018

Celebrating Exceptional Care: Real-Time Kudos

Examples from Recognition Rounds Across Mission Health System

“

Stated that her provider was very friendly and not rushed with her, **willing to listen & talk** to her, **took the time to explain** what was being done & why, kept her up to date -- came back into room often to keep her informed of results. - *Mission Hospital - Memorial Campus*

All of the CNAs [on] this unit are amazing. They all have a smile on their face whenever they come in, they are patient, and **willing to help how ever they can** - *Highlands - Cashiers Hospital*

She's the best nurse I've ever met. **You can tell she really loves her job** – *McDowell Hospital*

She checked on her **all night long as it was her first night alone** and her daughter went home to get rest – *Transylvania*

Pt wanted to recognize the nursing staff, for their compassionate care and **treating him as a whole person** not just treating the problem - *Mission Hospital - St Joseph Campus*
