

# Profiles in Innovation:

## ► Small (Rural) Hospital Improvement Projects (SHIP)

Critical Access & Small Rural Hospital Statewide Meeting

Location: 2400 Weston Parkway, Cary, NC

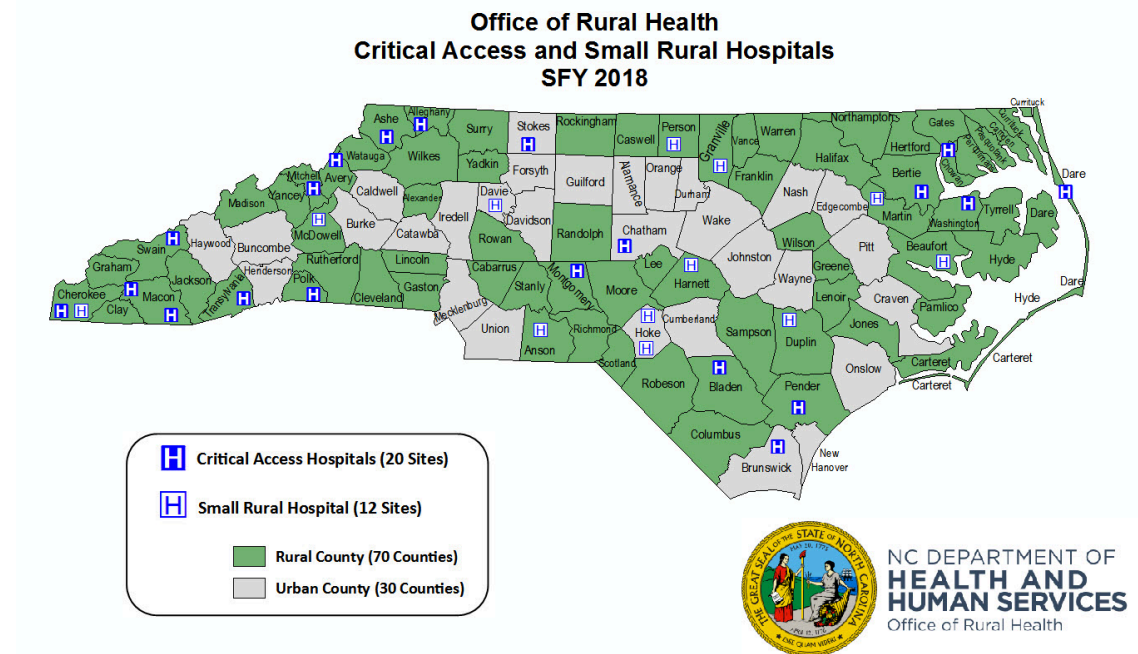

February 18<sup>th</sup>-19<sup>th</sup>, 2020

**Uniting hospitals, health systems and care providers for healthier communities**

© 2018 NCHA | All rights reserved

# SHIP Updates

- ▶ FY 2019-2020
- ▶ 25 of 31 participating hospitals
  - 21 Value Based Purchasing Quality Improvement Activities
  - 2 Accountable Care Organization or Shared Savings Investment Activities
  - 4 Payment Bundling or Prospective Payment System Investment Activities
  - Stroudwater CAH Cost Assessment & Strategic Web Application (2)

# Profiles in Innovation:

## ► MBQIP Data Trends

Critical Access & Small Rural Hospital Statewide Meeting

Location: NCHA 2400 Weston Parkway Cary, NC

February 18<sup>th</sup> and 19<sup>th</sup> 2020

Uniting hospitals, health systems and care providers for healthier communities

# CAH FLEX Funding Reporting Requirements

Time Period	Reporting Requirements
FY 2020	One Core MBQIP measures for at least 2 quarters in at least three domains
FY 2019	One Core MBQIP measure for at least one quarter in at least three domains; complete the appropriate “Notices of Participation for Public Reporting” as well as not opt to actively suppress their quality data from Hospital Compare
FY 2018	One Core MBQIP measure for at least one quarter in at least two domains
FY 2015-FY2018	One Core MBQIP measure for at least one quarter in any domain

## Current Medicare Beneficiary Quality Improvement Project (MBQIP) Measures

	<i><b>Patient Safety/Inpatient</b></i>	<i><b>Patient Engagement</b></i>	<i><b>Care Transitions</b></i>	<i><b>Outpatient</b></i>
<b>Core MBQIP Measures</b>	<p><b>HCP (formerly OP-27):</b> Influenza Vaccination Coverage Among Healthcare Personnel (HCP)</p> <p><b>Antibiotic Stewardship:</b> Measured via Center for Disease Control National Healthcare Safety Network (CDC NHSN) Annual Facility Survey</p> <p><b>Inpatient ED Measures:</b></p> <ul style="list-style-type: none"> <li>• <b>ED-2:</b> Admit Decision Time to ED Departure Time for <i>Admitted</i> Patients*</li> </ul>	<p><b>Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHPS)</b></p> <p><i>The HCAHPS survey contains 21 patient perspectives on care and patient rating items that encompass nine key topics:</i></p> <ul style="list-style-type: none"> <li>• Communication with Doctors</li> <li>• Communication with Nurses</li> <li>• Responsiveness of Hospital Staff</li> <li>• Communication about Pain†</li> <li>• Communication about Medicines</li> <li>• Discharge Information</li> <li>• Cleanliness of the Hospital Environment</li> <li>• Quietness of the Hospital Environment</li> <li>• Transition of Care</li> </ul> <p><i>The survey also includes four screener questions and seven demographic items. The survey is 32 questions in length.</i></p>	<p><b>Emergency Department Transfer Communication (EDTC)</b></p> <p><i>7 sub-measures; 27 data elements; 1 composite</i></p> <ul style="list-style-type: none"> <li>• EDTC-1: Administrative Communication (2 data elements)</li> <li>• EDTC-2: Patient Information (6 data elements)</li> <li>• EDTC-3: Vital Signs (6 data elements)</li> <li>• EDTC-4: Medication Information (3 data elements)</li> <li>• EDTC-5: Physician or Practitioner Generated Information (2 data elements)</li> <li>• EDTC-6: Nurse Generated Information (6 data elements)</li> <li>• EDTC-7: Procedures and Tests (2 data elements)</li> <li>• <b>All-EDTC:</b> Composite of All 27 data elements</li> </ul>	<p><b>Chest Pain/AMI:</b></p> <ul style="list-style-type: none"> <li>• <b>OP-2:</b> Fibrinolytic Therapy Received within 30 minutes</li> <li>• <b>OP-3:</b> Median Time to Transfer to another Facility for Acute Coronary Intervention</li> </ul> <p><b>ED Throughput</b></p> <ul style="list-style-type: none"> <li>• <b>OP-18:</b> Median Time from ED Arrival to ED Departure for <i>Discharged</i> ED Patients</li> <li>• <b>OP-22:</b> Patient Left Without Being Seen</li> </ul>

\*ED-2 is being removed by the Centers for Medicare & Medicaid Services (CMS) following submission of Quarter 4 2019 data.

†HCAHPS questions related to *Communication about Pain* are being removed by CMS beginning with Quarter 4 2019 surveys.

	<b>Patient Safety Culture Survey</b>  <b>Inpatient Influenza Vaccination<sup>§</sup></b> (formerly IMM-2)			

# EDTC Measure

Recommended modifications to measure in Spring 2018 reduced the total measure elements from 27 to 8 in order to streamline data collection and Include measures/elements that are essential for continuity of care and care coordination

Elements to Keep	Rational for Retention
1. Medications administered in ED	Key aspect of coordination of care
2. Allergies	Key aspect of coordination of care
3. Home Medications	Key aspect of coordination of care
4. Provider Note	Key aspect of coordination of care
5. Mental Status/Orientation	Recognition as best practice and early indicator of deterioration and are key aspects of assessment and coordination of care
6. Reason for Transfer and/or Plan of Care	Key aspect of assessment and coordination of care
7. Tests and Procedures Done	Key aspect of assessment and coordination of care
8. Tests and Procedures Sent	Key aspect of assessment and coordination of care

## All, All EDTC composite

The trend of average of EDTC\_Measures for End Quarter. The data is filtered on Participant and Name. The Participant filter keeps No and Yes. The Name filter keeps 19 of 19 members.

# Preliminary EDTC trend data

- ▶ 3<sup>rd</sup> Quarter: 83%
  - 15 of 20
  - Slight decline secondary to new reporting for some hospitals and still learning how to capture the data elements
- ▶ 4<sup>th</sup> Quarter: 95%
  - 18 of 20 CAHs reporting
  - Return to baseline performance
- ▶ Key Challenges: Staffing turnover and handoff communication around reporting requirements

## All , OP 1- Median Time to Fibrinolysis

The trend of average of OP Measures for End Quarter. The data is filtered on Survey Id, Participant and Name. The Survey Id filter keeps multiple members. The Participant filter keeps No and Yes. The Name filter keeps 20 of 20 members.

## All , OP 2- Percent Receiving Fibrinolytic Therapy in 30 Minutes

The trend of average of OP Measures for End Quarter. The data is filtered on Survey Id, Participant and Name. The Survey Id filter keeps multiple members. The Participant filter keeps No and Yes. The Name filter keeps 20 of 20 members.

All , OP 3- Minutes to Transfer for Acute Coronary Intervention

The trend of average of OP Measures for End Quarter. The data is filtered on Survey Id, Participant and Name. The Survey Id filter keeps multiple members. The Participant filter keeps No and Yes. The Name filter keeps 20 of 20 members.

## All , OP 5- Median Time to ECG

The trend of average of OP Measures for End Quarter. The data is filtered on Survey Id, Participant and Name. The Survey Id filter keeps multiple members. The Participant filter keeps No and Yes. The Name filter keeps 20 of 20 members.

## All , OP 20- Minutes from Door to Diagnostic Evaluation

The trend of average of OP Measures for End Quarter. The data is filtered on Survey Id, Participant and Name. The Survey Id filter keeps multiple members. The Participant filter keeps No and Yes. The Name filter keeps 20 of 20 members.

## All , OP 21- Minutes to Pain Management for Long Bone Fracture

The trend of average of OP Measures for End Quarter. The data is filtered on Survey Id, Participant and Name. The Survey Id filter keeps multiple members. The Participant filter keeps No and Yes. The Name filter keeps 20 of 20 members.

## Outpatient MBQIP trends

- ▶ Small volume can impact the overall performance from one quarter to the next when there are only a few hospitals reporting
- ▶ Steady improvement overall in reducing time for critical treatments:
  - Fibrinolytics
  - Transfer times for Acute Coronary Syndrome
  - Door to diagnostics
  - Pain Management for Long Bone Fractures

All, HCAHPS 2- Communication With Doctors

The trend of average of HCAHPS\_Measures for End Quarter. The data is filtered on Participant and Name. The Participant filter keeps Yes. The Name filter keeps 20 of 20 members.

## All, HCAHPS 1- Communication With Nurses

The trend of average of HCAHPS\_Measures for End Quarter. The data is filtered on Participant and Name. The Participant filter keeps Yes. The Name filter keeps 20 of 20 members.

# All, HCAHPS 5- Communication About Medicines

The trend of average of HCAHPS\_Measures for End Quarter. The data is filtered on Participant and Name. The Participant filter keeps Yes. The Name filter keeps 20 of 20 members.

All, HCAHPS 6- Discharge Information

The trend of average of HCAHPS\_Measures for End Quarter. The data is filtered on Participant and Name. The Participant filter keeps Yes. The Name filter keeps 20 of 20 members.

All, HCAHPS 7- Care Transitions

The trend of average of HCAHPS\_Measures for End Quarter. The data is filtered on Participant and Name. The Participant filter keeps Yes. The Name filter keeps 20 of 20 members.

# VALUE-BASED PROGRAMS

	2008	2010	2012	2014	2015	2018	2019
LEGISLATION PASSED	MIPPA	ACA		PAMA	MACRA		
PROGRAM IMPLEMENTED			ESRD-QIP HVBP HRRP	HAC	VM	SNF-VBP	APMs MIPS

## LEGISLATION

**ACA:** Affordable Care Act

**MACRA:** the Medicare Access & CHIP Reauthorization Act of 2015

**MIPPA:** Medicare Improvements for Patients & Providers Act

**PAMA:** Protecting Access to Medicare Act

## PROGRAM

**APMs:** Alternative Payment Models

**ESRD-QIP:** End-Stage Renal Disease Quality Incentive Program

**HACRP:** Hospital-Acquired Condition Reduction Program

**HRRP:** Hospital Readmissions Reduction Program

**HVBP:** Hospital Value-Based Purchasing Program

**MIPS:** Merit-Based Incentive Payment System

**VM:** Value Modifier or Physician Value-Based Modifier (PVBm)

**SNFVBP:** Skilled Nursing Facility Value-Based Purchasing Program

# CMS Authorized Programs & Activities

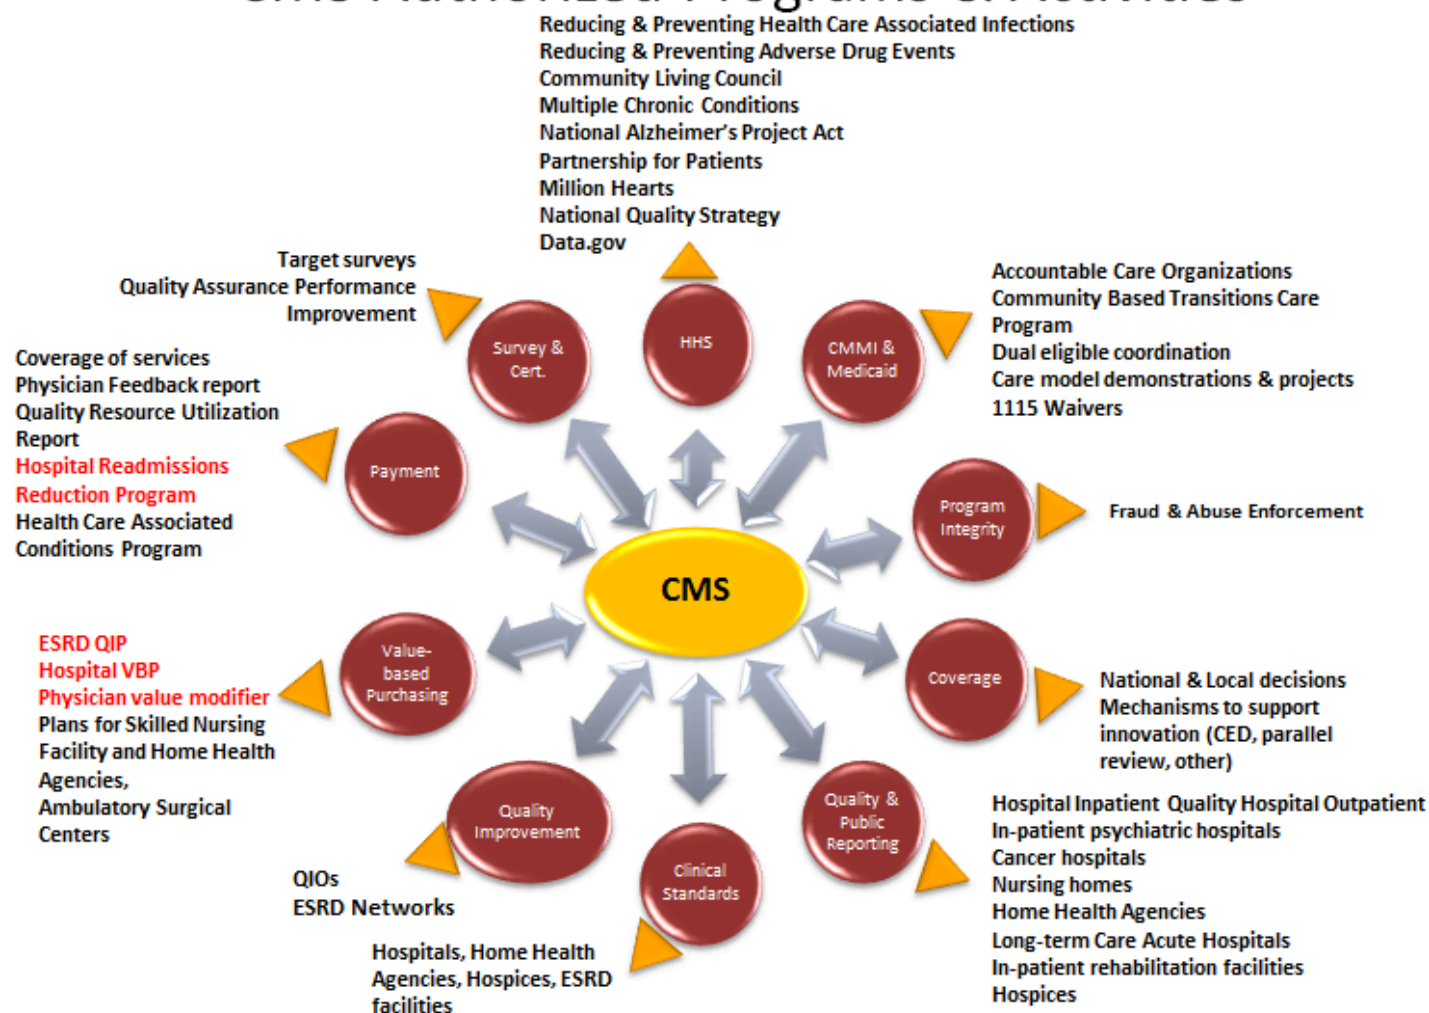

Figure 1

## Social Determinants of Health

Economic Stability	Neighborhood and Physical Environment	Education	Food	Community and Social Context	Health Care System
Employment	Housing	Literacy	Hunger	Social integration	Health coverage
Income	Transportation	Language	Access to healthy options	Support systems	Provider availability
Expenses	Safety	Early childhood education		Community engagement	Provider linguistic and cultural competency
Debt	Parks	Vocational training		Discrimination	Quality of care
Medical bills	Playgrounds	Higher education		Stress	
Support	Walkability				
	Zip code / geography				

**Health Outcomes**  
Mortality, Morbidity, Life Expectancy, Health Care Expenditures, Health Status, Functional Limitations

## Understanding Patient Flow... pre and post acute care

- ▶ Communication: ED visits, inpatient, and observation discharges with community providers
- ▶ Home Health, Hospice, and Skilled Nursing Facility Relations
- ▶ Personal Care Services- skill matching
- ▶ Community Based Organizations

# Community Collaborations... becoming better, together

## ► Becoming very intentional....

- Relationships
- Partnerships
- Making data meaningful
- Crossing networks
- Awareness for Your Community Narrative
- Accessing resources for pilot testing and long-term sustainability options

## Just A Few Reminders.....

- ▶ Day 2 CAH Critical Access & Small Rural Hospital Meeting February 19<sup>th</sup> to begin at 9:00 a.m.
- ▶ NCHA Winter Meeting February 20<sup>th</sup>- 21<sup>st</sup>, 2020
- ▶ CMS Request For Public Input:
  - Deadline is April 12<sup>th</sup>, 2020
  - Opportunities to improve health care access, quality, and outcomes before, during, and after pregnancy for women and infants in rural communities
  - Readiness of rural providers to respond to obstetric emergencies
  - Responses used to inform its programs and policies to ensure rural family access to high-quality health care that will result in optimal health outcomes
  - Visit [go.cms.gov/ruralhealth](https://go.cms.gov/ruralhealth)
