

The North Carolina Healthcare Foundation (NCHF) is the charitable non-profit affiliate of the North Carolina Healthcare Association.

Mission

To foster and accelerate the collective impact of hospitals, health systems, and community partners to improve the health of North Carolinians.

Vision

A North Carolina where high-quality healthcare is equitable and accessible for all.

Purpose: The NCHF convenes and partners with healthcare and community organizations to improve health outcomes. We serve as a hub for discovery and collaboration, providing capacity building assistance, performance improvement coaching, data and evaluation support, and leadership development, including the growth of diverse healthcare leaders.

NCHF focuses in the following areas:

Access to Health

Empowering communities to take control of their health by ensuring access to appropriate and affordable care, regardless of race, socioeconomic status, or geographic location.

Equity of Care Delivery

Using education, collaborative learning, coaching and uniform metrics to ensure that patient care varies based on patient need – not race, ethnicity or language.

Behavioral Health

Leveraging and coordinating resources to ensure behavioral healthcare is as accessible as any other medical care in North Carolina.

Rural Health

Redesigning models of care that support the unique needs of North Carolina’s rural communities.

Give today to build a pipeline of diverse healthcare leaders who reflect the North Carolina communities they serve at www.ncha.org/mentorship-program.

CaroNova is a strategic initiative of the NCHF, in partnership with the South Carolina Hospital Association and The Duke Endowment, to advance systems change in healthcare design and delivery across the Carolinas.

CaroNova’s Purpose: To align leaders across the Carolinas in pursuit of a better and more equitable system of care.
