

What Can Camacho Consulting Do For You?

Workplace Safety Assessments: In-depth evaluations and communication with key staff to gather valuable insights into a facility's training protocols and policies.

Workplace Safety Consultations: Improve security measures, develop comprehensive emergency response plans, and prepare you to handle any unforeseen situations.

Liability Assessments: Review hospital policies, procedures, and training to ensure facilities are well protected against potential lawsuits.

Camacho Consulting provides security and workplace violence solutions tailored to a healthcare facility's needs and budgetary constraints. Their staff conducts workplace safety assessments, provides consultations, and reviews potential liabilities to enhance the security posture of their hospitals and healthcare facilities.

Camacho Consulting is led by Owner Ron Camacho, a current police chief with over 28 years of experience in security and law enforcement and 13 years of training hospital security staff.

Facilitating Meetings with Law

Enforcement: Enhance collaboration, communication, and the overall relationship between your organizations.

Training for Security Team and

Managers: Equip your team with the skills and knowledge to address security concerns, empower staff, and prioritize well-being.

Situational Awareness Training: Enhance a hospital team's situational awareness and preparedness to help your staff identify potential threats.
