

## **Robeson Fresh Moves - Southern Carolina Housing**

Southern Carolina Housing (SCH), and community stakeholders/partners will join forces to provide access to healthy food options through the creation of a mobile grocery store. The Robeson Fresh Moves project will refurbish a bus into a mobile grocery store supplying fresh food and staple items to local unserved/underserved communities where traditional grocery stores are hard to find contributing to a more connected and resourced local food system. The project is designed with predictability in mind. Robeson Fresh Moves will appear in the same locations each week following a regular schedule, allowing residents to plan when purchasing food and developing meals. The project will also incorporate educational programming to empower residents to make healthy choices. Robeson Fresh Moves will utilize several internal and external nutritional assistance options including benefits under the Supplemental Nutrition Assistant Program (SNAP) and Electronic Benefit Transfer (EBT) to reduce the cost burden for low-income customers. No need to walk a mile to get groceries anymore, Robeson Fresh Moves is coming to your neighborhood.
